Association Baobab Ticino

Who are we

We are an association of volunteers with a big heart. Our aim is to help children in need by offering them the opportunity to attend school and provide them with all their needs. Our efforts are concentrated in the region of Malindi and Mambui in Kenya.

Why Baobab?

We are emotionally involved with each child we take care of and have a strong emotional bond with them because we go visit them as often as possible and never at the expenses of ABT.

Africa is also undergoing changes these days; everything is becoming more expensive and more difficult for the locals. ***Our intentions are not to change the world but to change one life at a time.***

We offer different adoption choices accessible to all. Every single donation that arrives, regardless of the amount, makes a difference.

Water, food, education and health are everyone's right but in this country it's increasingly a luxury for the few.

To make a mechanism work, whether it's simple or complex, functioning and fluid gears are needed. Baobab is just that: part of this wonderful mechanism. If you want a better world, all you have to do is choose a gear and help it turn.

What have we done so far

- ✓ Purchased cows, goats, chickens, beds and mattresses... and a brick-making machine.
- ✓ Guaranteed the studies and covered the needs of the 34 children since 2017
- ✓ Contributed to the construction of a house and a school for the children.
- ✓ Distributed food to needy families.

ABT was founded on the 5 th of September 2017

- ✓ Formed a team to start this adventure.
- ✓ The challenge to help children at risk of abuse and maltreatment starts.
- ✓ Seeking sponsors, donors and godparents who care for the well-being of the children the association supports and who believe in us.
- ✓ Finding volunteers for the different activities we do and making ourselves known.

Future projects

The foundations have been laid, now let's grow them together:

- ✓ Continue to support all the kids in their studies, cover their needs and total medical services when needed.
- ✓ Build the wall around the NEW land at Mambui.
- ✓ Building the new primary school, nursery and dining room.
- ✓ Creating a safe space for high school students to stay during school breaks.
- ✓ Creation of a playground on the property.
- ✓ Making the New Centre as self-sustainable as possible.
- ✓ Creation of a large vegetable garden in the grounds for the school children.
- ✓ Make it all functional by the end of 2023.
